

For 5 years(2024~2028)

Library provides support for SNU Authors Publishing in **ACM Journals** (Association for Computing Machinery) with free & unlimited APCs

*Entire Hybrid & Fully OA

The Library has signed an **Open Access(OA) agreement with ACM**, enabling researchers from Seoul National University to publish high-quality research articles openly

Eligible authors

SNU affiliated corresponding authors using their institutional email address (@snu.ac.kr)

Approval

Articles will be automatically approved based on the institutional email "@snu.ac.kr" in the manuscript.

Eligible articles

Research Article, Short Paper, Review Article, Survey Article, Technical Note, Tutorial, Interview, Note

Number of articles

Unlimited

Eligible journals

Journals, Magazine and Transactions published by ACM (75 titles)
+ Conference Proceedings Series(Check the publisher site with the QR code below)
*Entire Hybrid & Fully OA Journals

Application Process

(Author)

Article submission

- (Corresponding author) use the institutional email address "@snu.ac.kr"

(Publisher)

Publisher Approval

- (Publisher) Send an email notification with a link to the eRight Form

(Author)

email verification

- Follow the instructions provided in the mail
- Submit the eRight Form

* Check the following option on the eRights forms page linked in the email(as shown in the example)

What rights do you want to grant ACM? Note that both options obligate ACM to defend the work against improper use by third parties:

Institutionally Paid Open Access - The authors retain all rights to the work and give ACM non-exclusive permission to publish. This option allows the authors to display their choice of Creative Commons license on the work (license details below).

Exclusive License to Publish - Authors choosing this option will retain copyright of their work while providing ACM with exclusive publishing rights.

Journals list

(75 titles)

Conferece Proceedings Series

* The list is subject to change, therefore authors need to check further when applying
